0 accounts cleared the priority threshold this week - all 3 accounts remain in monitor status pending validation, with Life Time (7.2/10, WARM) ranking highest in the batch and representing the most.

Executive summary

0 accounts cleared the priority threshold this week - all 3 accounts remain in monitor status pending validation, with Life Time (7.2/10, WARM) ranking highest in the batch and representing the most defensible starting point ahead of Auberge Resorts Collection and Bishop's Lodge. The strongest confirmed signal pattern is event-driven vendor selection: Bishop's Lodge reopened under Auberge Resorts Collection in July 2021, a new property onboarding that historically triggers F&B and amenity procurement cycles, though it is worth noting this signal is now nearly four years old and its active buying window requires validation before assuming current relevance. Health clubs and wellness carry the highest average scores in this batch and warrant continued prospecting focus, while fitness and wellness clubs as a sub-segment are underperforming and should be deprioritized until stronger buying signals emerge. This week, contact Life Time's procurement or F&B operations team using the wellness café and healthy grab-and-go retail angle, given their confirmed signal and health-forward member experience positioning - verify whether their vendor contracts are centralized nationally or managed at the club level before crafting the pitch.
